The 7th annual City of New Orleans and Louisiana Mosquito Control Association Mosquito Academy will be held on May 7-9 2019. This 3-day academy will offer comprehensive information covering areas of mosquito biology and integrated mosquito management. Classroom learning will be re-enforced through hands-on workshops on surveillance, adult mosquito identification, yard inspections, and larviciding. In order to provide individual attention to each attendee, class size is limited. This year's academy will include presentations by mosquito control and public health professionals as well as university experts.

Academy Topics Include:

- Mosquito biology
- Identification
- Mosquito ecology
- Vector-borne diseases
- Integrated pest management
- Biological control
- Public education
- Adult & larval control
- Resistance monitoring
- Rules and regulations
- Emergency response
- New technologies
- Pesticide safety
- International mosquito control

CEU's and Louisiana state pesticide applicator recertification available. Other states available by request.

For more information, become of LMCA member, or to register for the Academy, please contact
